Fun home alison bechdel audiobook.

You can see a list of supported browsers in our Help Center. This is a gross perversion of the concept of "higher education," in which highly trained faculty develop a curriculum that exposes students to material that will enable them to master a topic or field of inquiry. After completing an English course on graphic novels, Tara Shultz publicly raised objections to Persepolis, Fun Home, Y: The Last Man Vol. CBLDF joined a coalition of free speech advocates led by the National Coalition Against Censorship and the ACLU of South Carolina in issuing a joint statement that condemned the budget "compromise": From National Coalition Against Censorship, American Civil Liberties Union of South Carolina, American Association of University Professors, American Booksellers Foundation for Freedom of Expression, Association of American Publishers, Comic Book Legal Defense Fund, Dramatists Guild, Foundation for Individual Rights in Education, Modern Language Association and National Council of Teachers of English June 13, 2014 As national organizations dedicated to freedom of speech and academic freedom, we strongly condemn the budget provision adopted by the South Carolina Legislature and accepted by Governor Haley on June 12, 2014, which penalizes two institutions of higher education for assigning books about the lives and experiences of gays and lesbians. The result of the state's action is potentially crippling to a democratic and globally competitive college education, which must empower students with broad knowledge and transferable skills, as well as prepare them for civic engagement. Please enable JavaScript or switch to a supported browser to continue using twitter.com. In June 2015, Fun Home was one of four graphic novels that a 20-year-old college student and her parents said should be "eradicated from the system" at Crafton Hills College in Yucaipa, California. All people who recall memories are unreliable narrators in a way, what we remember is so often tied up in emotions, and this is especially true for Bechdel. Responsibility; Alison Bechdel. And Bechdel herself has been recognized for her work: She was one of 21 recipients of a 2014 MacArthur Foundation Genius Grant. And yet, apart from assigned stunts dusting caskets at the family-owned 'fun home,' as Alison and her brothers call it, the relationship achieves its most intimate expression through the shared code of books. This leads to a question that haunts Bechdel throughout her life: was his death an accident or suicide? It violates the right of faculty to develop curriculum and assign books based on their disciplinary and pedagogical expertise and free of outside political interference by legislators who lack such expertise. Perhaps she wants to believe he committed suicide as a way to reconcile why her father stayed in his small country town all his life, married a woman, and had children despite being in personality what Bechdel describes as an "aristocrat." Being gay herself, she may be perhaps projecting her own thoughts and feelings into what her father felt and thought as he lived a double life. Additional resources: Adding Fun Home to Your Library or Classroom Collection Download a PDF of the Fun Home discussion guide here. 2: The Doll's House as "pornography" and "garbage," saying that Associate Professor Ryan Bartlett "should have stood up the first day of class and warned us." Crafton Hills administrators responded with a strong statement in support of academic freedom, although President Cheryl Marshall did note that future syllabi for the graphic novel course will include a disclaimer "so students have a better understanding of the course content." CBLDF joined the National Coalition Against Censorship to protest this attack on academic freedom, and the district backed away from the proposed disclaimer plan. Help Center Link : Book Summary .In this graphic memoir, Alison Bechdel charts her fraught relationship with her late father.Distant and exacting, Bruce Bechdel was an English teacher and director of the town funeral home, which Alison and her family referred to as the Fun Home. "This book takes its place alongside the unnerving, memorable, darkly funny family memoirs of Augusten Burroughs and Mary Karr. We've detected that JavaScript is disabled in this browser. It's a father-daughter tale perfectly suited to the graphic memoir form. Meet Alison's father, a historic preservation expert and obsessive restorer of the family's Victorian house, a third-generation funeral home director, a high school English teacher, an icily distant parent, and a closeted homosexual who, as it turns out, is involved with male students and a family babysitter. It's interesting that Bechdel insists it was suicide, yet her artwork suggests otherwise. In March, CBLDF joined a coalition led by NCAC to urge the South Carolina Senate to reject the budget cuts, and the Senate Finance Committee rightly rejected them. The proposed state budget would have cut CofC's funding by \$52,000, the exact amount needed for the annual The College Reads program. Then, in a rehabbed manor house that her father meticulously restores, not with his family's comfort in mind, but with aesthetically pleasing (and often impractical) furniture. As Alison grows older and realizes that she is a lesbian, she and Bruce are both forced to confront how his repression may have affected her own self-image and the way that she dealt with her sexuality. 1, and The Sandman Vol. Loaded with literary references and appropriately gothic-tinged ("fun home" is the Bechdel children's abbreviation for funeral home), the book was included on numerous "best of the year" lists, including Publishers Weekly, Time, Amazon.com, and The New York Times. She's a fan of psychology and its theories on the subconscious -- I wonder if she's aware that her frequent drawings of the moment of her dad's death don't promote any indication of suicide? Here, Bechdel does well to invoke references to Proust, with that author's metaphor of the two paths, and Joyce's "Ulysses," especially that delightful line about one character thinking about one character thinking about one character is thinking what they're thinking.Reliable or not as a narrator, Bechdel brings a raw openness to her story that is compelling. A few weeks after this revelation, he was dead, leaving a legacy of mystery for his daughter to resolve. He has since stopped responding to media inquiries. Through narrative that is alternately heartbreaking and fiercely funny, we are drawn into a daughter's complex yearning for her father. Awards: American Library Association Stonewall Book Awards, 2007 Description: 1 online resource (232 pages) : chiefly illustrations Contents: Old father, old artificer -- A happy death -- That old catastrophe -- In the shadow of young girls in flower -- The canary-colored caravan of death -- The ideal husband -- The author's journey. This shocking revelation, which Bechdel comes to know after her own coming-out in college, comes on the heels of family upheaval, culminating in her father's death by bread truck. National Coalition Against Censorship American Civil Liberties Union of South Carolina American Association of University Professors American Booksellers Foundation for Freedom of Expression Association of American Publishers Comic Book Legal Defense Fund Dramatists Guild Foundation for Individual Rights in Education Modern Language Association National Council of Teachers of English Ultimately, the South Carolina legislature's attack on Fun Home did little to dampen the popularity of the book. In 2006, Louis Mills of Marshall, Missouri, requested that the book (and another graphic novel, Blankets by Craig Thompson) be removed from the local public library. Such an education requires that students are presented with a wide variety of competing ideas and taught to look at them critically, to listen to others' arguments, and to present their own. Mills characterized the books as "pornography" and expressed concern that children might be drawn to them because they looked like comic books. After several months, the board ultimately approved a policy which stated in part that the library would buy materials based on contemporary or social significance, critical acclaim, patron requests or popular demand, and "timeliness and/or significance of subject matter." Both books clearly met several of these criteria and were restored to circulation immediately when the policy was approved, but the ordeal serves as an object lesson on how important it is for libraries to have a materials selection policy in place before a challenge happens. The illustrations and text work together to create powerful storytelling. (They show him crossing the road, deep in thought, his vision blocked by the yard-work debris he is holding, corroborating the truck driver's claim that he crossed the road, was startled by something like perhaps a snake, and jumped backwards into the path of the truck.) So there's an interesting contrast between what Bechdel says and what she draws. Father and daughter clash: He, an impeccable dresser wants his daughter in fashionable clothes; She, more happy in boots and mismatched tops and bottoms. Such leveraging of public funds with the goal of micromanaging curriculum and excluding disfavored ideas is a destructive assault on academic freedom. Additionally, the American Library Association recommends that "challenged materials...remain in the collection during the review process." In 2008, Fun Home faced the first of three challenges at the post-secondary level -- a rare feat for any book. It was not until college that Alison, who had recently come out as a lesbian, discovered that her father was also gay. In fact, an analysis of Goodreads statistics shows increased interest in the graphic novel. In 2014, the book faced a greater challenge in South Carolina, where the state legislature debated punitive budget cuts against the College of Charleston because it incorporated Fun Home into a voluntary summer reading program for incoming freshman. The provision goes further and requires that students be excused from assigned materials or otherwise mandatory lectures or out-of-classroom activities if they object because of "religious, moral or cultural beliefs." In other words, students are being invited to decide what they will read and learn within any class or discipline. However, the full Senate continued to debate the budget, coming up with a "compromise": Instead of cutting the funds, the legislature proposed a budget provision that doesn't cut funding but -- in an act of irony so classic that it should be included in the dictionary -- the provision reallocated the funds to books that teach about the Constitution. The history of the legislative debate makes it 100% clear that the legislature's primary concern is to force schools to eliminate educational content that some legislators dislike, or risk financial penalties. A student assigned to read the book in an English class at the University of Utah objected to its content and was offered an alternate assignment in accordance with the school's religious accommodation policy. The Supreme Court has sent a clear message over decades: lawmakers may not prohibit the expression of ideas simply because they find them to be offensive. In a profile on its website, the Foundation praised Bechdel for "changing our notions of the contemporary memoir and expanding the expressive potential of the graphic form." Further, Duke University selected Fun Home for a summer reading program much like College of Charleston's for incoming freshmen in 2014. Bechdel centers her story around her relationship with her difficult father, whom she loved despite his rages and eccentricities. The group started an online petition and issued a press release calling for the university to remove the book from its curriculum, but the challenge progressed no further as the English department and the university affirmed that the single student who objected had been reasonably accommodated. The student accepted the alternate assignment, but also alerted a Salt Lake City area group called "No More Pornography" to the book's inclusion on the course syllabus. The provision requires the schools, the College of Charleston and the University of South Carolina Upstate, to spend the exact amounts spent on the "objectionable" books to teach the U.S. Constitution, Declaration of Independence and Federalist papers, "including the study of and devotion to American institutions and ideals." It also mandates that students be allowed to avoid encountering educational material they find "objectionable based on a sincerely held religious, moral, or cultural belief." The provision is ostensibly a compromise, replacing a previous version in the House to cut funding in amounts to reflect the cost of the books. It's also finding popularity in other formats: The musical version was a finalist for a Pulitzer Prize in Drama and won three Tony Awards. Growing up with him as a father led to an unconventional childhood: first, in the family funeral home, where seeing dead bodies and playing with coffins with just another day. When Alison comes out as homosexual herself in late adolescence, the denouement is swift, graphic, and redemptive. "-Publisher description Alison Bechdel's Fun Home: A Family Tragicomic is a graphic novel memoir of the author's childhood, particularly focused on her relationship with her closeted gay father Bruce. She comes to understand her in a different light as an adult, when it's revealed that he's been having affairs with teenage boys, and suddenly, his eccentricities start to finally have an explanation. The version enacted poses exactly the same concerns as the initially proposed cuts: it represents unwarranted political interference with academic freedom and undermines the integrity of the higher education system in South Carolina. Maren Williams is a reference librarian who enjoys free speech and rescue dogs. From the best-selling author of Fun Home, Time magazines No. 1 Book of the Year, a poignant and hilarious graphic memoir of Alison Bechdel becoming the artist her gifted mother always wanted to be. As with many critically-acclaimed books -- particularly graphic novels -- Fun Home soon drew the attention of would-be censors. Another citizen who spoke at a library board meeting even contended that the books could result in "seedy people coming into the library and moving into our community." At the time of the challenge, the Marshall Public Library did not have an established materials selection policy, which would have laid out guidelines as to what types of items the library should buy. The library board decided to draft such a policy, but also opted to remove the two books from circulation during the development process. As of late June 2015, Tara's father Greg Shultz said he plans to speak to the San Bernardino Community College District Board of Directors which oversees Crafton Hills, and he also contacted state lawmakers. Penalizing state educational institutions financially simply because members of the legislature disapprove of specific elements of the educational program is not only educationally unsound, it is constitutionally suspect. The measure will put a severe chill on academic freedom in South Carolina, placing students at a competitive disadvantage. It was also a finalist for a National Book Critics Circle Award (memoir/autobiography category) and won an Eisner Award (best reality-based work), the Stonewall Book Award (non-fiction), the GLAAD Media Award (outstanding comic book), and the Lambda Literary Award (lesbian memoir and biography).
